

ENDANGERED ANIMAL iMOVIE PROJECT 6TH GRADE SCIENCE

Endangered Animals – a population of animals which is at risk of becoming extinct because it is either few in numbers, or threatened by changing environmental or predation parameters.

In this iMovie Project, you will be assigned an animal that has been placed on the endangered species list. It will be your job to learn about the animal and research its characteristics, adaptations, living environment, and why it is endangered. After completing your research, you will develop an iMovie presentation to exhibit your findings.

Research Paper Information (60pts)

Common Name:	2pts
Scientific Name:	2pts
Location:	2pts
Habitat:	2pts
# of Species	2pts
Food	2pts
Predators	2pts
Offspring	2pts
Endangerment	2pts
What can be done?	2pts
20 Characteristics/Adaptations	20pts
Final Report	20pts

iMovie Presentation (60pts)

iMovie Presentation, must include:

- | | |
|--|--|
| <input type="checkbox"/> A Title | <input type="checkbox"/> Number of Species Left |
| <input type="checkbox"/> Sound or Music | <input type="checkbox"/> What Animal Eats |
| <input type="checkbox"/> Pictures | <input type="checkbox"/> Who Animal's Predators are |
| <input type="checkbox"/> Animal's Common Name | <input type="checkbox"/> Number of Offspring Produced |
| <input type="checkbox"/> Animal's Scientific Name | <input type="checkbox"/> Why Animal is Endangered |
| <input type="checkbox"/> Animal's Location | <input type="checkbox"/> What Can Be Done to Save Animal |
| <input type="checkbox"/> Animal's Habitat | <input type="checkbox"/> 20 Characteristics or Facts |
| <input type="checkbox"/> Credits (First name only, and references/resources) | |

TOTAL (120pts)
